Flemming, of Hope, advertised in another part of the Current, a sale of household goods and farming implements and will leave very soon with his wife for California, where they plan to make their future home. The Flemmings are fine citizens and we regret to lose them from among us, but the Current will keep them informed about the news from their old home.

Mrs. M. F. Thomas, of Pond Creek, Okla., is in the city a guest at the home of her cousin, T. E. Williams. The lady will probably remain here for some time. Mr. and Mrs. Williams and their guest, spent Tuesday in Artesia, guests of the Reser family at that place.

Inspection of the men and their personal equipment began last night at 6:45 and was concluded at 11 o'clock. The men were put through the manual of arms and all acquitted themselves creditably. The inspecting officer took occasion to make some very commendatory remarks as to the personnel of the men composing the troupe. Inspection is being continued today and will probably last through the entire afternoon. A full report and the revised roster of the troop has been promised for next week's paper. The inspecting officers will return to Albuquerque tonight.

From a wire received by relatives we learn that Postmaster John W. ORGAN - STENDER MEETINGS STILL IN PROGRESS

The meetings held by the Organ-Stender evangelistic company at the Christian church are increasing in interest and in attendance, the church even with the new addition being wholly inadequate to contain the crowds who attend and have been turned away or have stood during the entire service.

The music is a most attractive part of the meetings and Reverend Stender, the singer, has sung his way into the hearts of all who have been attending. Members of the various choirs of the city have also assisted in the singing and the different ministers of the city have co-operated so that this has seemed almost like a union meeting. The evangelists frequently speak of the kindness shown them and their wives by our people without regard to church affiliations. About twenty conversions and accessions to the church have been reported to date.

Sunday morning the services will be held in the church but the evening meeting will be held at the Crawford theatre in order that there may be room for all and a cordial invitation is extended to every one to be present at that time.

Homer A. Gragg, jeweler, who has his store in the R. E. Dick drug store, wishes to announce to his patrons that he has a lease on his present stand in that building and will continue to conduct his business at the same old stand regardless of the outcome of legal action now being instituted against the drug store.

Miss Gladys Jones, daughter of Mr. and Mrs. Frank Jones, has been quite ill from some form of infection on her face, but is better at this time and will soon be about again.
